THE PARK SCHOOL EAGLE: Two publications this year. Our students “stretched out” their creative muscles with fun writing exercises incorporating words from a spelling program.

MATH CLUB: The students in grades 3-4 joined a Math Club to work on problem solving and critical thinking skills. The students participated in many challenging and hands-on activities.

SCHOOL BEAUTIFICATION PROJECT: The PTO, faculty and students have made improvements to the front entrance by adding flowers, fencing, family made stepping stones and a butterfly garden.
