Rhode Island gathers a variety of data to help schools with planning and accountability. The value-added calculations and the learning-support indicators combine different sources of data to help schools plan instruction, allocate resources, and focus on student performance.

Value-added indicators were not calculated because state assessments were not administered at the grade levels in this school in the 2004-05 school year.

### Characteristics of students attending this school

<table>
<thead>
<tr>
<th>Student eligibility for subsidized lunch programs</th>
<th>Students from various ethnic backgrounds</th>
