Curriculum and Instruction: Career Preparation

Career-preparation programs, courses, and activities are designed to ensure that all students are considering their own futures, are exposed to career and work options, and have the academic, technical, and employability skills to be successful in higher education and the workplace.

Programs and Participants

Career-preparation programs, courses, and activities are designed to ensure that all students are considering their own futures, are exposed to career and work options, and have the academic, technical, and employability skills to be successful in higher education and the workplace.

Participation of all students in Career-Preparation Education

SALT Survey Findings: Student Responses

This school

The state

Percent of students who report that:

- they belonged to and regularly participated in career exploration experiences

- Classroom activities are connected to the world outside the classroom.

- In classes, we are given assignments that help us find out about things outside of school.

- Teachers tell students how the work we do is related to our lives outside of school.

SALT Survey Findings: Teacher Responses

This school

The state

Percent of teachers who report that at least monthly, in their classes:

- Assignments are designed to help students learn about resources in the community.

- Projects are designed to help students learn about issues in the community.

- People from the community are brought in to speak to the class on different topics.

- Practical 'real world' applications of course material are discussed and emphasized.
