- Economically Disadvantaged

SALT Survey Findings: Teacher Responses

- This school
- The state

Percent of teachers who report that at least monthly, in their classes:

- Assignments are designed to help students learn about resources in the community.
- Projects are designed to help students learn about issues in the community.
- People from the community are brought in to speak to the class on different topics.
- Practical ‘real world’ applications of course material are discussed and emphasized.

Percent of teachers who report the following experiences most of the time or always:

- Classroom activities are connected to the world outside the classroom.
- In classes, we are given assignments that help us find out about things outside of school.
- Teachers tell students how the work we do is related to our lives outside of school.

Percent of students who report that:

- they do things in the community as part of assignments
- they study or have field trips to learn about different careers
- they can talk to a teacher or other staff member about career opportunities
- they can talk to a teacher or other staff member about college information

Percent of students who belong to and regularly participate in career exploration experiences

Percent of students who feel that most of the time or always:

- they can talk to a teacher or other staff member about career opportunities
- they can talk to a teacher or other staff member about college information

SALT Survey Findings: Student Responses

- This school
- The state

Percent of students who report often having the following experiences at their school:

- classroom activities are connected to the world outside the classroom.
- in classes, we are given assignments that help us find out about things outside of school.
- teachers tell students how the work we do is related to our lives outside of school.
