Safe and Supportive Schools: Health Risks

Student risk behaviors and attitudes

The indicators below, drawn from the SALT Survey, provide a sense of the extent to which students in this school have begun to experiment with behavior that risks or compromises their physical or mental health. If persistent or habitual, such behaviors can interfere with or even damage a student’s education, health, or both. (Only students in 4th grade and above take the SALT Survey.)

Percent of students who say that within the last 30 days:

- They drank alcohol at least once.
- They used illegal drugs (such as marijuana, uppers, downers, inhalants).
- They used chewing tobacco or snuff.
- They smoked at least one day.

Percent who say their close friends would approve or not care if:

- They smoked marijuana regularly.
- They had 5 or more alcoholic drinks once or twice each weekend.
- They drank alcohol at least once.
- They used illegal drugs (such as marijuana, uppers, downers, inhalants).
- They used chewing tobacco or snuff.
- They smoked at least one day.

Percent of students who say that:

- On an average school day, they Instant Message (IM), check their e-mail, or visit chat rooms at least 2 hours or more.
- On a typical night they get 7 hours or less of sleep.
- During the past week they ate breakfast 2 days or fewer.
- They felt they had problems with one of the following: acne, overweight, underweight, too tall, too short.

Student health practices

- Providing on-site health or social services
- Providing health-promoting environment and wellness programs for students (e.g., fitness days, health messages)
- Providing access/linkages for students and parents to health and social services or counseling
- Providing policies that support positive health practices and wellness for teachers and students (e.g., smoke-free environment, eliminate vending machines with junk food, reduce fat in lunch-room meals)

Students’ primary care

Where students say they usually see their regular doctor or nurse when they are sick:

- I have no regular doctor or nurse.
- Other health-care facility
- Emergency room/Hospital
- Doctor’s office
- Community health clinic

Teacher and principal attitudes

Percent who agree or strongly agree that the following practices are essential to effective education:

- Teachers at this school
- Elementary-school teachers statewide
- Elementary-school principals statewide

Questions not asked at this grade level.

Too few responses to report.

Inadequate data submitted.
