Learning and Achievement: Assessments

The New Standards Reference Exams are administered annually in March to students in grade 11. RIDEd uses the results of these tests to determine school-performance classifications for high schools and to measure school and district progress. This test was phased out in 2006-07; in 2007-08, high-school students took the NECAP tests, the results of which will be reported in Information Works! 2009.
