### SALT Survey Findings: Student Responses

#### Percent of students who report that:

- They belonged to and regularly participated in career exploration experiences

#### Percent of students who report having the following experiences most of the time or always:

- Classroom activities are connected to the world outside the classroom.
- In classes, we are given assignments that help us find out about things outside of school.
- Teachers tell students how the work we do is related to our lives outside of school.

### SALT Survey Findings: Teacher Responses

#### Percent of teachers who report that at least monthly, in their classes:

- Assignments are designed to help students learn about resources in the community.
- Projects are designed to help students learn about issues in the community.
- People from the community are brought in to speak to the class on different topics.

#### At least weekly:

- Practical "real world" applications of course material are discussed and emphasized.
