Programs and Participants

Career-preparation programs, courses, and activities are designed to ensure that all students are considering their own futures, are exposed to career and work options, and have the academic, technical, and employability skills to be successful in higher education and the workplace.

Program Types

Participation of all students in Career-Preparation Education

This school

The state

Missing data indicates no Career Preparation participants.

Curriculum and Instruction: Career Preparation

Program Participants

( Includes students in Academies, Career & Tech Programs, Tech Prep, and Career Exploration )

SALT Survey Findings: Student Responses

Percent of students who report that:

- Classroom activities are connected to the world outside the classroom.
- In classes, we are given assignments that help us find out about things outside of school.
- Teachers tell students how the work we do is related to our lives outside of school.

Percent of students who report often having the following experiences at their school:

- they can talk to a teacher or other staff member about career opportunities
- they can talk to a teacher or other staff member about college information

Percent of teachers who report that at least monthly, in their classes:

- Assignments are designed to help students learn about resources in the community.
- Projects are designed to help students learn about issues in the community.
- People from the community are brought in to speak to the class on different topics.

SALT Survey Findings: Teacher Responses

At least weekly:

- Practical 'real world' applications of course material are discussed and emphasized.
