Participation of all students in Career-Preparation Education

This school

The state

Missing data indicates no Career Preparation participants.

SALT Survey
Findings: Student Responses

This school

The state

they belonged to and regularly participated in career exploration experiences

Percent of teachers who report that:

- Practical 'real world' applications of course material are discussed and emphasized.
- Assignments are designed to help students learn about resources in the community.

Percent of students who report that:

- Classroom activities are connected to the world outside the classroom.
- In classes, we are given assignments that help us find out about things outside of school.

Percent of students who report often having the following experiences at their school:

- Classroom activities are connected to the world outside the classroom.
- In classes, we are given assignments that help us find out about things outside of school.

Percent of students who feel that most of the time or always:

- Teachers tell students how the work we do is related to our lives outside of school.
- they can talk to a teacher or other staff member about career opportunities.
- they can talk to a teacher or other staff member about college information.
