

RIDE uses index scores to determine school and district classifications. The index scores are based on the performance levels of students at all grade levels in the state tests of reading, writing, and mathematics. Scores are calculated for all students and for eight student groups. Under NCLB, RIDE also sets targets for participation, attendance, and graduation rates.

**Elementary Schools:
School Classification
Indicators and Targets**

- Mathematics**
- 2007 state target
 - This district's index score
- English Language Arts**
- 2007 state target
 - This district's index score

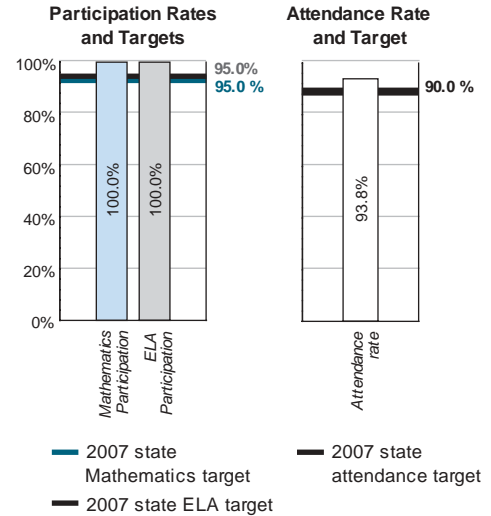

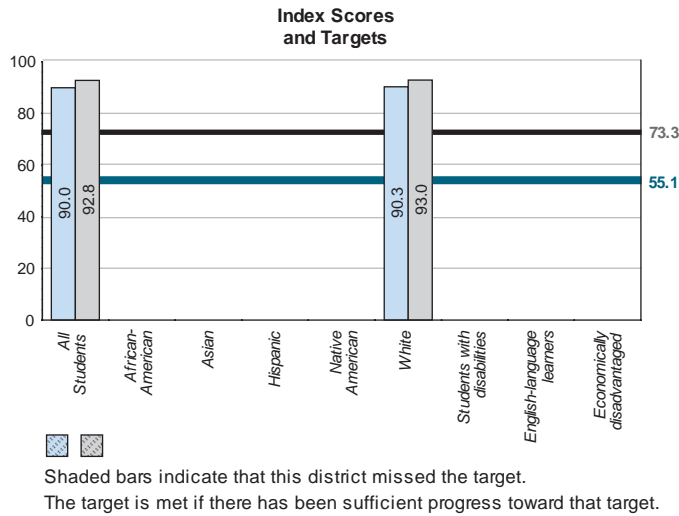

Missing data indicates fewer than 45 students in that group.

**Middle Schools:
School Classification
Indicators and Targets**

- Mathematics**
- 2007 state target
 - This district's index score
- English Language Arts**
- 2007 state target
 - This district's index score

Missing data indicates fewer than 45 students in that group.

**High Schools:
School Classification
Indicators and Targets**

Because Little Compton does not have a high school of its own, its students attend Middletown High School.
