Highly qualified teachers

The single most important aspect of a child’s education is having a good teacher. And teachers overwhelmingly cite student success as their principal motivator. To be maximally effective, teachers need to feel sure that their professional judgment is always vital to school improvement, to schoolwide decision-making, and to anything that affects the welfare of their students.

SALT Survey findings and barriers to reform

The percent of teachers who responded to the SALT Survey is shown in the following chart. The bars represent the percentage of teachers who responded for each school year.

What Teachers Say

Percent of teachers who say that the following are a moderate to major problem:

- Lack of time necessary for adequate planning and/or implementation
- Lack of adequate team planning time
- Lack of training for teachers
- Lack of developed curriculum

Percent of teachers who say that most of the time or always:

- Things are pretty disorganized
- Staff push themselves to do their best work.
- Student discipline/behavioral management
- School-wide goals
- The opportunities they have to take part in decisions

Teacher efficacy

The percent of teachers who feel encouraged to make their own decisions and who feel that their team or grade level shares professional material and information with each other is shown in the following chart.

What Teachers Say

Percent of teachers who say they agree or strongly agree that:

- I am encouraged to make my own decisions.
- My team or grade level shares professional material and information with each other.
- Staff push themselves to do their best work.

Percent of teachers who say that their team or grade level has much or very much decision-making authority regarding:
