School Improvement: This was the first year of implementation of our School Improvement Plan. Three year Action Plans were written to accompany our strategies.

Technology: Each classroom was updated with new computers, CD Roms and other software.

Parental Involvement: There were 3 different parent groups involved with the school. A group met for parenting workshops, another for "coffee hour" with the principal and teachers who could attend, and the others met as a crafts group for parents and children.

Financial information:
Financial information will appear at the individual school level in next year’s INFORMATION WORKS! This year, data collected from a sample of Rhode Island districts and schools will be available under separate cover.

This school is not eligible to take the state tests used to produce this part of the report.
