To increase the enrollment throughout the region and study admissions procedures of students who participate in Career & Technical education so that they encourage broad-based constituencies.

To expand Career & Technical experiences within each of the region's high schools to build the West Bay Region's capacity for an informed workforce.

To maintain an involvement in the Breaking Ranks in the Ocean State network to identify and gather resources and technical assistance not otherwise available in the region.

To align the learning goals of comprehensive high school teachers and their students with business/industry, making them aware of industry's standards and the need for academic/occupational learning.
