Student s receive writing skills instruction
Students revise their reports and papers
Teachers assign reading materials other than textbooks
Students receive mathematical reasoning and concepts instruction
Students use charts, graphs and diagrams
Teachers assign hands-on learning (manipulatives, labs, projects)
The school invites people from the community to speak on different topics
Teachers give suggestions on how to help with school work

Financial information
Financial information will appear at the individual school level in next year’s INFORMATION WORKS! This year, data collected from a sample of Rhode Island districts and schools will be available under separate cover.

SALT VISITATION: We served as a pilot school for the visit and found results to be very worthwhile, especially in revising our strategic plans.

CONSTRUCTION: We added 40,000 sq. ft. to the building which enables our 6th grade population space at Kickemuit Middle School and expands the Library Media Center.

TECHNOLOGY: 250 Pentium computers were distributed to classrooms and computer labs. Sixty televisions were installed.

Selected SALT survey findings (Teacher responses)
