Highlights from the school

See Web for school goals.

Anytime/Anywhere: Anytime Learning project is creating a "Connected Learning" community. Teachers and students are using laptop computers to extend the hours of the day to the home and community. Students are producing work that meets high standards.

Mill Museum Project: The activities selected by teachers are derived from topics that are contained within the building. They are then encouraged to look at their research, compare answers with their first suspicion and make new questions based on result.

Literacy Coach/Literacy Initiative: This past year we have continued to dig deeper into our work with balanced literacy through the support of our district initiative. It has expanded our approach to balanced literacy throughout all grade levels.
